8. Market how supplied.

9. Progress of agricultural operations, state of standing crops, prospects and probable out-turn of the harvests, serious damage done to crops by insects or other natural calamities.

10. Prospects of season, tracts in which rainfall has been insufficient, areas affected by scarcity, number of people under relief and state of food stocks.

11. Remarks on the condition of agricultural stock, failure of pasturage of fodder, etc.

BANGALORE.

8. Well supplied.

9. *Standing crops.*—Ragi, avare, togari, jola, groundnut, paddy, sugarcane, horsegram, etc., are fairly good.

Harvest.—Nil.

Sowing.—Nil.

10. Coolies find sufficient labour.

11. Cattle are reported to be generally healthy. Fodder is available.

KOLAR.

8. Moderately supplied.

9. (1) *Seeds sown.*—Sowing of Vaisakhy paddy is reported to be still in progress in some parts of Sidlaghatta Taluk.

(2) *Standing crops.*—All the standing dry and wet crops are reported to be in good condition.

(3) *Crops harvested.*—Paddy in some parts of Bangarpet Taluk; onions in Chikballapur Taluk; ragi, same, groundnut, etc., in all the taluks are being harvested.

10. Prospects of the season are reported to be fair. Water and fodder for men and cattle are available. Cattle are reported to be generally healthy except for the prevalence of Anthrax in some parts of Kolar Taluk; Blackquarter in some parts of Sidlaghatta Taluk. Where necessary preventive and curative measures are reported to have been taken.

Cooly classes find sufficient labour.

TUMKUR.

8. Fairly well supplied.

9. *Seeds sown.*—Paddy in parts of Pavagada Taluk.

Standing crops.—Ragi, avare, thogari, navane, same, groundnuts, paddy and sugarcane are all reported to be in good condition.

Crops harvested.—Ragi in parts of Chiknaikanahalli, Kunigal, Tumkur and Pavagada Taluks; navane, same, haraka in parts of Chiknaikanahalli, Tumkur and Pavagada Taluks. Kar ragi is being harvested in parts of Sira Taluk.

10. *Public Health.*—Public health is generally good except for the prevalence of small-pox in Kuppur Village, Chiknaikanahalli Taluk. Rat-falls are reported at Halnur Village, Tumkur Taluk and necessary measures are reported to have been taken in this behalf.

11. Cattle are reported to be generally healthy except for the prevalence of Blackquarter at Begur Village and Anthrax at Chikmalalavadi, in Kunigal Taluk. Necessary measures to check the spread of the disease are reported to have been taken. Water and fodder are available, labour is available for cooly classes.

MYSORE.

8. It is reported that the markets are normally well supplied in all the Taluks of the District.

9. *Seeds sown.*—It is reported that paddy was sown in Gundlupet Taluk. Transplantation of paddy is in progress in Gundlupet Taluk.

Standing crops.—Such as paddy, ragi, horsegram, castor, thogari and sugarcane are reported to be fairly in good condition. But the pest attack on ragi crop is still persiting and causing damage in some parts of Hanagodu Hobli and also in some parts of Gundlupet Taluk. The Agricultural Department are taking remedial measures to check its spread.

Crops harvested.—It is reported that ragi is being harvested in Mysore, Gundlupet, Chamarajnagar, Nanjangud and Periyapatna and T.-Narsipur Taluks.

10. (1) Prospects of the season are fair.

(2) The rainfall during the week is sufficient throughout the District except in Nanjangud Taluk. It is reported that urgent rains are required for standing crops like chillies, ete, in Nanjangud Taluk.

(3) The cooly and agricultural classes are finding sufficient employment throughout the District.

(4) Sufficient quantities of foodgrains are made available throughout the District subject to the overall allotments made to the District.

11. Public Health is generally good except for the prevalence of plague in a few villages of Heggaddevankote and Hunsur Taluks; and cholera in one village of Hunsur Taluk and rat fall in few villages of Mysore Taluk. Necessary preventive measures are being taken to check the spread of the epidemics.

Cattle are reported to be generally healthy. Water and fodder are fairly available throughout the District except in Gundlupet Taluk where difficulty for drinking water is reported to have been felt in a few villages.

MANDYA.

8. Well supplied.

9. The standing crops of sugarcane in V. C. area and paddy and ragi in all the Taluks are reported to be in good condition.

Ragi is being harvested in the Taluks of Mandya and Malvalli.

10. Prospects of the season are reported to be fair.

11. The Public Health is reported to be generally good throughout the District except for the prevalence of cholera in Maddur Town. Effective preventive measures have been taken to check the spread of the epidemic.

Cattle are reported to be healthy in all the taluks. Water and fodder are available in sufficient quantities.

HASSAN.

8. Well supplied.

9. The standing crops like paddy, ragi, horsegram and sugarcane in Hassan, Arkalgud, Belur, Chennarayapatna, Hole-Narsipur and Alur Taluks; and ragi in Arsikere Taluk are reported to be in good condition. Ragi is being harvested in parts of Arsikere and Chennarayapatna Taluks.

10. The prospects of the season are fair. Most of the small tanks have received water for irrigation purposes.

11. Water and fodder are available. Except for some cattle disease in Beechanahalli village, Hole-Narsipur Taluk for which the Veterinary authorities are addressed. The cattle are reported to be generally healthy in other parts of the District.

SHIMOGA.

8. Well supplied.

9. Paddy, ragi, jola and groundnut are being harvested in some parts of the Taluks.

The standing crops of ragi, jola, paddy, sugarcane, cotton and horsegram are reported to be in good condition.

10. Prospects of the season is generally good. There is Plague in Chennagiri and Honnali Taluks. Preventive measures are reported to have been taken.

11. Cattle are healthy. Watter and fodder are available.

CHIKMAGALUR.

8. Markets were fairly supplied but the prices of staple commodities were very high.

9. (1) *Standing crops.*—Paddy, ragi, jola, sugarcane, cotton, chillies in Chikmagalur Taluk; ragi, paddy, chillies, avare, thogari, coriander, castor, horsegram, sugarcane in Kadur Taluk; paddy, ragi, jola, horsegram, avare, sugarcane, coriander and minor millets in Tarikere Taluk; paddy and sugarcane in Koppa, Mudigere and Narasimharajapura Taluks; and paddy and areca in Sringeri Jahagir.

(2) *Crops Sown.*—Nil.

(3) *Crops Harvested.*—Jola, ragi, chillies and sugarcane in Chikmagalur Taluk; save, navane, ragi and paddy in Kadur Taluk; and paddy in Narasimharajapura Sub-Taluk.

[illegible]-hopper pest on paddy in Bukkambudhi, Tarikere Taluk, and "ಕಜ್ಜಿ ರೋಗ" on paddy near Banakal were prevailing. The Agricultural Department is taking preventive measures against ths Grasshopper pest.

Water, fodder and labour were sufficiently available throughout the District.

10. Public health was generally good except for the outbreak of small-pox near the shandy maidan in Chickmagalur Town. Mass vaccinations are done.

11. Cattle were generally healthy except for the prevalence of "Foot and Mouth" disease at Mavinakere in Mudigere Taluk. The Veterinary Department has been addressed to take preventive measures.

CHITALDRUG.

8. Markets are reported to be well supplied except controlled commodities.

9. *Sowing.*—Sowing of cotton, navane and transplantation of paddy in some parts of Chellakere Taluk; suarcane and bili-jola in Hiriyur Taluk is reported to be in progress.

Standing Crops.—Ragi, bili jola, navane and cotton in Chitaldrug Taluk; dodda-ragi and paddy in Chellakere Taluk; ragi, navane, cotton, chillies, haraka, save and bili-jola in Holalkere Taluk; ragi, jola, cotton, navane, save, haraka in Davangere Taluk; cotton, groundnut, jola, ragi, navane, horsegram, thogari, greengram in Harihar Taluk; are reported to be in good condition.

Harvesting.—Harvesting of sugarcane, gidda-ragi and dodda-ragi in Hiriyur Taluk; ragi and save in Davangere Taluk; jola, yada-ragi and sajje in Molakalmuru Taluk; groundnut, navane and ragi in Harihar Taluk is reported to be in progress.

10. Cooly classes are finding sufficient labour throughout the District.

11. Cattle are reported to be generally healthy throughout the District except in one village in Holalkere Taluk where dodda-roga is prevailing. The Veterinary Department has been addressed for taking preventive measures.

Water is available throughout the District. Fodder is available at present throughout the District.

OFFICE OF THE REVENUE COMMISSIONER IN MYSORE, Bangalore, Dated 21st November 1950.

V. VEDAVYAS ACHARYA,
Revenue Commissioner.

MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE WEEK ENDED THURSDAY, 9TH NOVEMBER 1950.

A total of 29 attacks with 12 deaths from Plague was returned from 12 villages, in 7 taluks, in 5 districts during the week against 17 attacks with 6 deaths in the previous week. City of Mysore reported 1 attack with 1 death while Bangalore Corporation and Kolar Gold Field Area reported free from Plague. Comparative figures for the corresponding week in 1949 and 1948 were 32 attacks with 18 deaths and 76 attacks with 43 deaths respectively.

A total of 15 attacks with 4 deaths from Small-pox was reported from Bangalore Corporation, Gudibanda and from Mulbagal, Malavalli and Narasimharajapura Taluks.

Nine attacks with 7 deaths from Cholera were reported from Bangalore Corporation and from Bangarapet, Maddur and Mandya Taluks.

The State remained free from Influenza and Relapsing Fever.

The total mortality for Bangalore City Corporation amounted to 191 (56 in hospitals) for 7 days representing a calculated death-rate of 19·8 (14·0 excluding hospital deaths) per mille of population (annual basis) as against 22·3 for the corresponding week of last year. Classified according to causes the deaths numbered 3 under Typhoid, 3 under Other Fevers, 33 under Dysentery and Diarrhœa and 152 under All Other Causes. The reported mortality was low.

The total mortality for Mysore City was 52 (11 in hospitals) for 7 days representing a calculated death-rate of 14·1 (11·1 excluding hospital deaths) per mille of population (annual basis) as against 18·3 for the corresponding week of last year. Classified according to causes were. Other Fevers 6, Dysentery and Diarrhœa 5 and All Other Causes 41. The reported mortality was low.

There were 28 deaths (8 in hospitals) for 4 days from All Causes in Kolar Gold Field Area equivalent to a calculated death-rate of 14·2 (10·1 excluding hospital deaths) per mille of population (annual basis) as against 10·1 for the corresponding week of last year. Classified according to causes the deaths numbered 1 under Malaria, 1 under Other Fevers, 5 under Dysentery and Diarrhœa and 21 under All Other Causes. The reported mortality was very low.

T. CHANDRASEKHARAIYA,
Director.

BANGALORE,
Dated 13th November 195.

N. V. SIDDALINGAPPA,
For *Director*.

OFFICE OF THE DIRECTOR OF ANIMAL HUSBANDRY SERVICES IN MYSORE, BANGALORE.

Notification dated 16th November 1950.

(HEALTH OF LIVE-STOCK DURING OCTOBER 1950).

In their order of severity, outbreaks of rinderpest, black-quarter, anthrax, hæmorrhagic-septicæmia, foot and mouth, contagious-goat-pleuro-pneumonia, rabies, ranikhet and sheep-pox were encountered in the State during October 1950. Altogether 292 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 218 villages during the previous month. The number of out-breaks was highest in Kolar, Tumkur, and Bangalore Districts, while Mandya, Hassan and Shimoga Districts were least affected. These diseases accounted for 1,409 attacks, of which 1,062 succumbed as against 732 attacks and 610 deaths during the previous month. The departmental staff conducted 52,007 preventive inoculations and vaccinations against all the above diseases except foot and mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against foot and mouth disease.

As many as eight outbreaks of rinderpest of which four were among sheep, and goats, were registered in Honnali Channagiri, Shimoga and Chitaldrug Taluks accounting for 32 attacks among cattle and 214 attacks among sheep and goats of which 17 cattle and 202 sheep and goats succumbed. Prompt measures of control were undertaken by the department to check its spread and 3,532 cattle and 705 sheep including goats in the infected villages and 16,744 cattle and 1,815 sheep including goats in the neighbouring 70 villages extending over a radius of three miles were protected against the disease. The disease appeared to be well under control at the end of the month under report.

Prevelance of an obscure disease akin to gastroentritis among cattle and buffaloes in Hassan and Chikmagalur Districts was reported during the month from 10 villages with 106 attacks and 58 deaths. The research staff of the Department was promptly deputed to investigate its occurence and during the month they have protecteds 2,757 animals in these districts against this disease.

Diseases caused by internal parasites were reported from 96 villages resulting in 73 deaths, as against 105 villages accounting for 23 deaths during the previous month. The special staff attached to the parasitic disease control units of the Department dosed 6,380 animals, as against 6,477 animals during the previous month.

The rest of the live-stock remained free from diseases during the month and fodder and water were generally available throughout the State.
